EXPERIENCE

Adobe x Artcenter Designstorm
Mar 17-19 2026

Product Designer

Collaborate with Adobe on exploring the next generation of creative workflows. Developed a concept for a tool that captures designer intent rather than automating execution, positioning AI as a translation layer instead of replacing creativity.

Cedars Sinai
Sep 2025 - Dec 2025

Product Designer - Sponsored Project

Led a multidisciplinary team to design an AI-powered tool supporting community navigators in delivering culturally relevant cancer screening information. Conducted research with stakeholders and translated insights into a system that improves trust, accessibility, and outreach effectiveness.

Tencent
May 2025 - Aug 2025

UX Design Internship

Designed core features end to end on an ad monetization platform for international clients. Worked closely with product and engineering teams to align design decisions across the platform.

Live product

Art Center College of Design
Sep 2024 - Present

Teaching Assistant

IXD Graduation Studio: Facilitated critique sessions alongside the department head, providing feedback to graduating students when needed.

Interaction Design 3: Supported instructor in teaching the double diamond framework, guiding students through design process, iteration and product thinking.

EDUCATION

Art Center College of Design
Sep 2023 - May 2027 (anticipated)

B.S. in Interaction Design (STEM)   GPA: 3.92

Built expertise across the full design process. Collaborated with industry sponsors to tackle real-world design challenges.

California Institute of Technology
Sep 2024 - Dec 2024

Computer Science (Exchange Program)

Studied computer science in an AI-forward academic environment, strengthening technical foundations in interaction design and front-end development.

EXPERTISE

Skills	Software	AI Assisted	Language
User interface	Figma	Claude	English
User experience	Adobe suite	Claude code	Mandarin
User research	Framer	Figma make	
Rapid prototype	Solidworks	Perplexity	
Graphic design	Keyshot	Midjourney
